

iOS Sales Force Pro is the perfect solution to enable your remote sales force to create invoices, quotes, and charge credit cards on the fly using their iPad and sync it with FileMaker Server. You can push and pull data without worrying about dropped connections or FileMaker Go hibernation issues corrupting your data transfer. The standard enterprise license includes access for an unlimited number of FileMaker Go for iPad users and FileMaker Server to host the back end iOS Sales Force Pro solution. The database is completely functional as is, including tables for customers, products, invoices, payments, and automated printing and emailing invoices directly from FileMaker Server to your customer.

# iOS Sales Force Pro 11

1. The software is provided as an open source, unlimited site license for development. Either the customer or Formulations Pro can be contracted to customize the software as necessary.
2. Installation is only necessary for clients that do not have an existing FileMaker Server to host the solution. Installation costs include complete installation and configuration of FileMaker Server.
3. Server Hardware Recommendation: Intel Xenon 2.26 GHz Quad Core, 3 GB RAM, RAID 5 3 x 160 GB SATA, OS X Server or equivalent Windows based server of similar specifications. Windows 2003/2008 Server and CALS may be required for an additional cost.
4. Annual maintenance includes database maintenance, free updates and upgrades, and server maintenance where appropriate. Updates and upgrades may not apply to third party products and services or customization.
5. Training is for up to 10 people for 1, 4 hour session.
6. Help desk includes email and phone support. It does not include custom programming or on-site services.
7. Master Service Agreement (MSA) is a pay-as-you-use service over a 1 year period. MSA includes Annual Maintenance and Help Desk. Any unused hours will be billed at the end of the service period.
8. Third party vendor support, fees, and availability may change without notice. Supported gateways include: Authorize.net, Authrize.net Card Present, PayPal, Cybersource, Transaction Central, Merchant Anywhere, PayTrace, NMI, MerchantWARE, Navigate, BluePay, FastCharge, SecurePay, Braintree, USAePay, Expitrans, PlanetAuthorize, GoToBilling, CyberAuthorize, eProcessingNetwork, Pivotal, Merchant's First Choice.

† Costs will be billed at the time of installation, service, and/or delivery.
